U.S. Patent and Trademark Office PTOL-37 (Rev. 08-06) 1. The Amendment received 9/21/06 has been considered in preparing this Office action.

Claims 1-15 remain pending in this application. Applicants' amendments to the claims and the Remarks/Arguments have overcome the objections and rejections recited in the prior Office action mailed 6/26/06.

## Allowable Subject Matter

- 2. Claims 1-15 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to an electroluminescent display device. Each of the independent claims 1, 6 and 15 requires a combination of features, comprising a connection part (145) extending from a conductor (117) and onto which a connector (140) is removably connectable for supplying the accelerating voltage (see figure 1); whereas, the closest prior art, the Tajima et al. patent (U.S. Patent No. 6,885,156) teaches the use of a lead-in wire and a connection lead, which do not anticipate or suggest the claimed invention, as specifically pointed out by the applicants, see the applicants' Remarks/Arguments, pages 8-10 of the Amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
